

Cyclone Montego Torino REGISTRY UPDATE 11/24

Restoration help: Malwood makes hydraulic clutch units for about everything midsize blue oval. Just released one for 72-76

that surely would fit through 79!

Was this a crazy promotional see-through Torino or what? No idea what shows it was taken to nor where it ended up.

Preproduction GT before the fastback was given the go.

A few two tone cars are out there, more popular down south.

Hard to believe that it has been 23yrs since this JL Spoiler came out.

Bill Schenk's red clay 1967-68ish

Our noncar Cyclone is a 5th wheel camper:
